

About the Institution

Anna University – BIT Campus, Tiruchirappalli, has been established by the Government of Tamil Nadu as a Technical Institution at Tiruchirappalli- known as Rock Fort city, with rich cultural heritage and home to many reputed educational institutions. The institution is established with a view to impart quality student centered technical education, so as to produce proven technocrats and to strive hard for continuous development and improvement in learning, research and developmental activities. Teaching, Research and Extension services are carried through the Departments and Centers of the Institution. The institution also works towards fostering partnership with academic and industrial experts to provide quality education and opportunities for entrepreneurial development by providing hands-on training in the frontier areas. BIT has carved a niche for itself in providing technical education in the disciplines that are unique in our country. Aiming at excellence, the institution offers UG, PG and research programmes in various disciplines.

About the Department

The Department of Biotechnology, a DST-FIST sponsored department, offers B. Tech., M. Tech., M.S. (by Research) and Ph.D., degree programmes. The department has made rapid strides in academics and research. The best efforts are put in to motivate students to enter into modern vistas of research and development. The quality research programmes addressing topics of current global interest synchronizing with emerging trends are envisaged. The department has a vision to promote and strengthen the research activities in interdisciplinary fields and a number of research projects are vigorously being carried out in areas

like RNAi technology, nanobiotechnology, biofuels, cancer biology, genetic engineering, plant biotechnology, bioremediation and bioinformatics. Several research projects funded by State / Central Government agencies such as TNSCST, DBT, DST, DRDO, ICMR, MNRE and UGC are being operated by the faculties.

About the Programme

The aim of the TEQIP sponsored Faculty Development Programme (FDP) is designed to develop new approaches and advances in various fields of biotechnology and train the faculty who wish to upgrade the skills and knowledge. This programme will be helpful to strengthen the practical knowledge and update the recent trends in biotechnology.
